## PROGRAM & PROJECT MANAGEMENT

We offer a "custom-tailored" framework for organic systems innovation-oriented, as businesses demand. We ensure customer, a process of continuous training on the job of their resources introducing a new project management culture, PMI® standards inspired.

### OVERVIEW

The methodology proposed is divided into two basic stages: **Assessment and Driving & Training**.

In the first stage is made an assessment with the customer to identify the most suitable type of **PMO support**.

In the second stage is defined the **Project Management Map** and a constant PM Customer training activity is launched.

### KEY BENEFITS

We guarantee the introduction of **flexible and agile methodologies**, able to avoid overhead information and be implementable in any context.

We provide a real **knowledge transfer towards the customer resources**, enabling them to implement the Best Practices of management, planning, execution, monitoring and control of project activities.
